9. ☐ Other \_\_\_\_\_.

### REASONS FOR ALLOWANCE

1. Applicant's response along with Request for Continued Examination (RCE) filed on 08/03/2004 has been fully considered.
2. Claims 1, 5 and 11 are amended, claims 2 and 10 are cancelled, claims 13 and 14 are added, and thus claims 1, 3-9 and 11-14 are pending.
3. All pending claims 1, 3-9 and 11-14 are allowed.
4. The following is an examiner's statement of reasons for allowance: The closest art Otouma et al. (US 4,780,356) teaches an ink jet recording sheet comprising a paper, an intermediate layer on the paper, and an overlayer containing porous particles, wherein the overlayer comprises particles having two particle size ranges, i.e., the first particle size is 0.1-50  $\mu\text{m}$  (equivalent to the claimed particle B) and the second particle size is 0.1-20  $\mu\text{m}$  (equivalent to the claimed particle A). The content of the particles having the second particle size is less than 70%. Otouma neither teaches nor suggests the content of the particles having the second particle size to be within the claimed invention. The calculated content of the particles having the second particle size is between 88-95.2% which falls out of the prior art's range. In addition, Otouma neither teaches nor suggests having a layer containing crosslinking agent disposed between the intermediate layer and the overlayer as recited in claim 13. Furthermore, Otouma neither teaches nor even fairly suggests excluding particle size range of 101-999nm between the second particle size and the first particle size as recited in claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
